## 2. "Speak, Feel and Imagine Your Thriving Life!"

### Online Zoom Class Series

Sessions held Wednesdays and Sundays at 8:30 p.m. Eastern beginning Sept 27

- **Prospering In All Ways (4 Part Zoom Series)**

**Investment: \$444**

Prosperity is a state of consciousness. Whatever we desire is already available to us. As we think in our heart so are we. Here you will find Prosperity Courses that have real action steps to take into your real life, produce real miracles! Your dreams matter. To turn your Dreams into physical Matter, they have to matter to you! Please give them to yourself. Instead of just getting more of something, our classes are about embodying something more, being something more.

- **Living Your Co-Empowered Life (4 Part Zoom Series)**

**Investment: \$444**

Our Relationships are our reflections of our true selves and living in relationship may be every living person's Divine assignment. Our Relationships are reflections of our true selves. As we awaken to our new choices, relationships come to the forefront. Anytime our happiness and contentment is affected by outside sources (people, places, conditions, things) is when Co-Dependence in acting. The consciously creative person eventually awakens to the need/choice to be secure and stable within themselves (sovereign).

- **Imagination Activation™/Outcome Facilitation™/Outcome Mapping™ Immersion (4 Part Zoom Series)**

**Investment: \$444**

The role of imagination is the very next step in Mastery Systems. When the individual awakens to what they are creating with their words and thoughts and the fact the subconscious (and the Universe) is listening and obedient, they immediately begin to make lots of new choices. Words like "I want" (I lack, I desire without having) begin to shift into words like "I Choose", and "I Claim." Once we have made a new choice, the novice will attempt to find a how can I have my new choice, which only limits creative power.

- **Health and Wealth Reversals and Upgrades (4 Part Zoom Series)**

**Investment: \$444**

Did you know our bodies reveal our subconscious thoughts and emotions with virtually every move we make? Learning to interpret yours and others' body language opens a whole new world of communication for healthy relationships and your joyful life – at home, work and play. Our bodies store our genetic and experiential memories and give us a dramatically deeper understanding of where we are in consciousness, because your subconscious actually "speaks" to you through your body – through your symptoms, itches and scratches, as well as hand gestures, breathing patterns, and bodily functions. Your key to a profound level of knowledge about yourself is knowing how to translate body language, and then use what you learn to identify what you really desire (instead of what your other-than-conscious self may be telling you). When you remember your heart's greatest desires – which we all have ability to do -- you can make your highest choices easily.

**Register for All 4 Mini Series to save.

Your eyes reveal your latent and unexpressed capabilities and strengths awaiting full manifestation. By examining the fiber structures, topography and layers of color in the iris of the eye, the vascular activity in the sclera, and facilitating with Conscious Language and Outcome Facilitation, a trained individual can easily resolve, understand, forgive and transmute long standing genetic and experiential reactions and limitations into choice and action.
